

# CC30 HD Camera with Wireless Audio

The Ultramodern Collaboration Camera

**CC30** gives you a collaborative real-time virtual experience with its 120° wide angle view and enhancing software. Ideal for any remote shooting application, CC30 allows you to video conference, livestream, and record with the smoothest video quality.

### True HD 1080p Resolution

At 8MP, 30fps live video with full HD, CC30 provides high performance in even the lowest illumination situations. The high picture quality allows you to capture it all in one shot!

### Wide Lens with ePTZ

120° wide-angle lens combined with digital zoom makes CC30 the perfect tool for creating an all-inclusive, non-delay environment for recording or video communication.

### Plug-N-Play

It's a plug and play video conferencing camera so easy to use for even the most technically challenged! Simply connect to your TV screen or laptop in one step.

### Wireless Audio!

CC30 comes fully equipped with a wireless, built-in microphone that's ready to capture and amplify crystal clear audio in just about any room.

### Free Software & Mobile Apps

Annotate, screencast, and livestream video using CC30's free CaptureShare software to invigorate compelling lectures. Who says you can't draw arrows and circles to highlight key points on a digital recording?

### Compatibility

CC30 is compatible with all your favorite apps and software such as Skype™, Skype for Business, Zoom, us, Adobe Connect, and Google Hangout. It gets easier. Download CC30's iOS/android mobile app to effortlessly configure, control, and initiate the camera from your phone.
