

AVer's Power Pledge

How safe are the charging solutions in your classroom?

PREVENT loss of education

Products are held to the highest standards in order to become UL certified, so they can last through the toughest classroom situations.

PROMOTE safe learning

Protect students, staff, and schools by purchasing UL certified products, and have peace of mind in creating a safer learning environment.

POWER student devices most efficiently

Numerous tests are completed to evaluate the stability durability, fire resistance, surge protection, electric shock, and general safety.

All AVer charging solutions are **UL60950-1 certified**

Products are held to the highest safety standards with UL60950-1 certification to protect against potential hazards.

Join us in building a safer classroom today.
