E30p

USB-C Pre-Wired Charging Cart

Pre-Wired | **Smart** Cycle Charging | **Space Saving** | **USB-C** | **10 Yr** Mechanical 5 Yr Electrical Warranty

The AVer E30p is a charging solution with a 30-device capacity, designed to simplify device management in classrooms. Pre-assembled and pre-wired for ultimate convenience, it features smart cycle charging technology, a sleek and durable design, and space-saving double doors to fit seamlessly into any classroom setting.

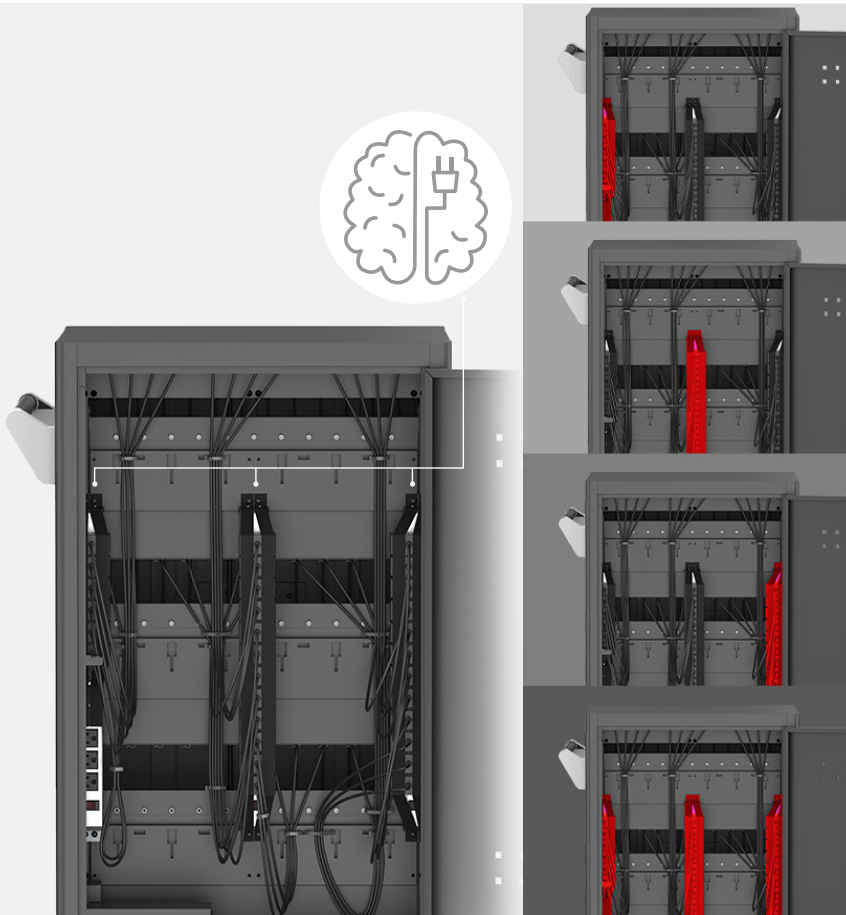
Smart Cycle Charging

The E30p features smart cycle charging, ensuring student devices are powered efficiently and ready when needed.

1) E30p charges the devices on the 1st power strip and alternates every 20 minutes to charge each power strip.

2) If the charging zone has only one or two devices and the electrical demand is less than 0.5A, the system will automatically skip to the next charging zone.

3) If the electrical demand of entire cart is less than 8A, the system will charge all devices simultaneously instead of cycling between the three zones.



Pre-Wired for Convenience

The E30p comes fully pre-wired and ready to use, offering a hassle-free, plug-and-play solution.

Compact Design for Every Classroom

The E30p is designed to support up to 30 devices up to 15” in size, all while maintaining a compact footprint thanks to its space-saving double-door design, making it ideal for even the most confined spaces. Its sleek, modern aesthetic seamlessly complements any classroom environment, offering both functionality and style.

Durable and Built to Last

Backed by a 10-year mechanical warranty, a 5-year electrical warranty, and a 1-year adapter warranty, the E30p is built to withstand the daily hustle and bustle of the classroom.

Specification

Device Capacity	30
Slot Size	W = 3.2cm (1.26") D = 38cm (14.96") H = 26cm (10.24")
