

# CP10

Safe and Easy Collaborative Touch Controller

*The CP10 conference room controller offers everything you need to control video meetings and fits beautifully in a variety of meeting spaces. The 10.1" touch controller offers a multitude of features including a capacitive touch screen, anti-fingerprint screen, LED indicators, and antibacterial touch glass with ion technology to keep everyone safe for the product's lifetime.*

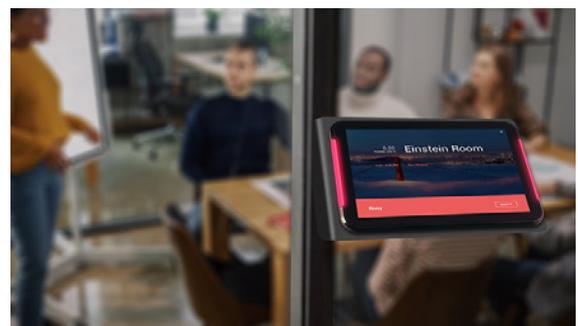

## Fine-tuned for productive meetings

The CP10 offers fine-tuned touch for productive meetings. A 10.1-inch capacitive touch screen supports 10 points of touch for accuracy and ease of use. The built-in table stand produces an optimal viewing angle for smooth viewing and touch interaction while the LED indicators show meeting status like muted mics.

## One device for two roles

Configure the CP10 as a controller inside your meeting space or use it as a scheduling display outside any meeting room. The optional easy slide-in wall mount allows you to display conference room schedules while the LED light indicators can be programmed to show whether a meeting is in progress.

## One-cable connection for easy installation

Easy to install and set up, the CP10 offers one PoE+ ethernet connection for power and camera control. Ensure clean installs, minimize cabling and reduce desk/tabletop clutter for a streamlined look. The one-cable connection allows for flexible placement and reduced costs in professional AV installations.

## Works with all your favorite applications

The CP10 is pre-loaded with the Zoom Rooms controller app for ease of use. Using the PTZApp 2, the CP10 enables camera controls with popular platforms like Teams, RingCentral, BlueJeans, etc. With multiple options to choose from, the CP10 offers an easy connection to your favorite application.

## Easy to Manage

Easily manage the controller with enterprise management software or platform portals. The integrated AVer PTZApp 2 enables camera setup and control, including features like visual preset points. Personalize the controller to improve productivity.

## Specifications

### Display

- Antibacterial glass panel\*
- 10.1-inch anti-fingerprint screen
- Resolution: 1280 x 800
- Aspect ratio: 16:10
- Comfortable and ergonomic viewing angle
- Built-in table stand with a 23° display angle
- Optional wall mount with a 68° display angle

\*Antimicrobial glass is FDA (USA) & SIAA (JP) certified. Unlike normal antimicrobial film or spray, CP10's glass uses ion exchange technology to maintain antibacterial effectiveness for the product's lifetime.
