

VB370A and CP10 G2 Controller Bundle Powered by Android™

Elevate Collaboration with Smarter Technology

Step into the future of video conferencing with the VB370A and CP10 G2 Controller Bundle, a powerful bundle that combines advanced AI-driven video capabilities with intuitive touch-panel controls. Powered by Android™, this integrated system ensures a seamless, secure, and reliable experience for modern workplaces. With cutting-edge features like intelligent tracking, crystal-clear audio, and effortless room scheduling, the VB370A and CP10 G2 Controller Bundle empowers your teams to connect, communicate, and succeed.

Dual-Lens Precision for Superior Video Coverage

At the heart of the VB370A is a dual-lens system that combines an 18X zoom PTZ camera with a fixed wide-angle lens offering a 120° field of view. This innovative design captures every detail, from individual speakers to full-room perspectives, delivering crystal-clear visuals for all participants. Whether hosting intimate discussions or large meetings, this solution ensures exceptional video quality tailored to your space.

AI-Powered Intelligence for Smarter Meetings

Revolutionize your collaboration with advanced AI features like Smart Composition, Auto Framing, and voice tracking, which automatically adapt to your meeting dynamics. Paired with noise-blocking technology and beamforming microphones, this solution provides an immersive, distraction-free experience that keeps the focus on what matters most—your discussions.

Powered by Android™ for Seamless Integration

The VB370A and CP10 G2 Controller Bundle is powered by Android™, offering intuitive meeting controls and a secure, dependable platform optimized for Zoom Rooms. With the CP10 G2's user-friendly 10.1-inch touch display and one-touch meeting access, this solution eliminates the need for additional software or PCs, simplifying operations and ensuring a seamless, hassle-free experience.

Superior Audio and Clean, Safe Design

Crystal-clear communication is ensured with the VB370A's 14-microphone array featuring beamforming, audio fencing, and echo cancellation. Additionally, the CP10 G2's antimicrobial coating supports cleanliness and safety in shared spaces, making it ideal for high-traffic environments where safety is a priority.

Versatile and Streamlined for Any Workspace

This solution supports dual-screen setups for displaying content and speakers simultaneously, along with flexible connectivity options for clutter-free installations. From small huddle rooms to large boardrooms, the VB370A and CP10 G2 Controller Bundle adapts seamlessly to your space and can expand with additional cameras, microphones, and accessories as your needs evolve.
