Device Connection

Power Connection and Charging

1

Plug in power adapter and turn on M70W.

[Note]

- Please full charge the camera for the first time use.
- When the camera is power on, the camera is in “**Standby**” mode. In standby mode, it can be charging with the USB connection between other devices; but the power supply is required 5V2A and the charging time will be longer.
- The laptop, projector, or monitor **cannot** provide the power through the USB connection to the camera while the camera is operating.
- When the camera is charging with the wall outlet, the battery indicator is in green flashing.
- Press  +  to reboot when the camera doesn't work properly.

USB Connection

1

Press Wi-Fi button to disable Wi-Fi mode.

Connect M70W to laptop/PC with USB port.

2

Connect USB pen drive to USB port to save the recording file.

HDMI Connection

1

Connect M70W to HDMI display with HDMI output port.

2

Connect M70W to laptop/PC with HDMI input port.

P2P connection via Wi-Fi Dongle

1

Plug-in the WiFi dongle to PC/laptop and Install AVerTouch application.

2

Open AVerTouch application, click  to connect the camera.

[Note] Check the serial number at bottom of the camera to find your camera.

3

Click Next to continue.

4

Entering the Camera Name and Passcode, click Done to continue.

5

Click Done button to connect camera.

[Note] It takes about 60 seconds to complete connection.

6

Select X can exit the live view page.

[Note] When connecting is successful, you should see the live view of the camera.

Wi-Fi Connection

1

Power on the camera.

Check the Wi-Fi status – Blue light on.

2

Open AVerTouch and follow on-screen instruction to enable Wi-Fi function on camera.

[Note]

- The software will auto detect the camera on your network.
- Select the camera that you want to connect with it.
- The camera name will be "AVer 'model name' - WiFi dongle Mac address". The Mac address will be different from the device.

3

Select the  to make a connection with the camera.

4

Select  to switch to camera live screen.

Miracast Connection

1

Press  to enter selection menu.

[Note]

- Use , , , and  button to move between the selections and press  button to confirm the selection.
- A commercial Miracast Dongle (Wireless Adapter) is required for the display device.

2

Select Wireless > Mode > Miracast to enable Miracast mode.

3

The camera image will display on the display device's screen.

[Note]

- Press  back to the menu.
- The detected display devices will be listed out.
- The camera image will display on the display device's screen after connecting.

Using the Camera

Object Position

The icon on top of camera head can help user to place objects in a positive direction.

The direction adjust wheel can turn 90° to change the icon in 2 positions (refer to figure).

Shooting Area

When camera position is 470mm high, the shooting area will be A3 size.

Storage the Camera

Mounting the Camera on a Flat Surface

[Note] M4 screw x4, depth is 5mm.

WARNING

- To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture. Warranty will be void if any unauthorized modifications are done to the product.
- Do not drop the camera or subject it to physical shock.
- Use the correct power supply voltage to avoid the damaging camera.
- Do not place the camera where the cord can be stepped on as this may result in fraying or damage to the lead or the plug.
- Hold the bottom of the camera with both hands to move the camera. Do not grab the lens or Flexible arm to move the camera.
- Do not pull the mechanical arm and camera part in the opposite direction.

RADIO FREQUENCY

FOR PORTABLE DEVICE USAGE (<20m from body/SAR needed eg. BT dongle, smartphone)

Radiation Exposure Statement:

The product comply with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

FOR MOBILE DEVICE USAGE (>20cm/low power eg. AP routers)

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

RADIO FREQUENCY

Europe – EU Declaration of Conformity

This device complies with the essential requirements of the Radio Equipment Directive (2014/53/EU). The following test methods have been applied in order to prove presumption of conformity with the essential requirements of the Radio Equipment Directive (2014/53/EU)

CAUTION

- Risk of explosion if battery is replaced by an incorrect type.
- Dispose of used batteries in a safe and proper manner.

FEDERAL COMMUNICATIONS COMMISSION

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

THE MARK OF CROSSED-OUT WHEELED BIN INDICATES THAT THIS PRODUCT MUST NOT BE DISPOSED OF WITH YOUR OTHER HOUSEHOLD WASTE. INSTEAD, YOU NEED TO DISPOSE OF THE WASTE EQUIPMENT BY HANDING IT OVER TO A DESIGNATED COLLECTION POINT FOR THE RECYCLING OF WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT. FOR MORE INFORMATION ABOUT WHERE TO DROP OFF YOUR WASTE EQUIPMENT FOR RECYCLING, PLEASE CONTACT YOUR HOUSEHOLD WASTE DISPOSAL SERVICE OR THE SHOP WHERE YOU PURCHASED THE PRODUCT.
