

[Windows] AVer Enterprise Management Release Notes – Oct 3rd, 2026

VERSION	1.3.2026.0
HARDWARE COMPATIBILITY	The following product models are supported by AVer Enterprise Management. • TR310/TR311/TR311HN/TR313/TR331/TR333 V0.0.0000.21 and later • TR530+ 0.0.1000.47 and later • PTZ310/PTZ310N/PTZ330/PTZ330N 0.0.0000.56 and later • PTC330UV2/TR333V2/PTC320U(N)V2/TR323NV2/PTC310UV2/TR313V2/PTC310HW V2/TR311HWV2 0.1.0000.23 and later • PTZ211/PTZ231/PTZ310U(N)V2/PTZ330U(N)V2 0.0.0000.15 and later • TR315(N)/TR335(N)/TR211V0.0.0000.24 and later • TR535(N) 0.0.0000.18 and later • TR615 0.0.0000.21 and later • TR322 0.0.0000.06 or later • DL10 7.1.0031.32 and later • DL30 7.0.0000.08 and later • MD120U(I) 1.1.1003.0 and later • MD330U/MD330UI 1.1.1004.0 and later • MD720UIS 1.1.2139.0 and later • CAM550/VC550 0.0.8006.02 and later • CAM570 0.0.8104.02 and later • CAM520 Pro3 0.0.9602.32/VC520 Pro3 0.0.9802.18 and later • CAM520 Pro2 0.0.7204.30 and later • VB342Pro 0.0.7806.02 and later • VB350 0.0.8210.02 and later • VB370A(BYOD) 0.1.1004.85 and later • VB150 V0.0.8400.10 and later • Fone700 0.0.8300.38 and later • HUB30, HUB35-EXT35 0.0.0000.18 and later • MT100 0.1.0000.63 and later • MT100S 0.2.0000.86 and later • MT300(N) 0.0.0000.46 and later • MT500 0.0.0000.11 and later

	• NC30 V0.0.0000.07 or later • CL02 V0.0.0000.15 or later • CORE500 V1.2.1400.16 or later • FONE700+ 0.0.8600.36 or later
OPERATING SYSTEMS	Windows 7, 8, 10, 11 (64-bit), Windows 11 is for V1.1.1029.0 and later only
Related Software	AVer Device Utility

V1.3.2026.0 Release date: Oct 3, 2026	New Device: - Added support for CORE500 via Management Agent - Added support for FONE700+ - Added support for CL02 New features - Added support for AI Mate for Local AI server - Added support for Dashboard View in Management - Added support for daily event notification - Added support Decode Mode for HW decoder acceleration Improvements - NA Known issues - NA
V1.3.2023.0 Release date: Jul 13, 2026	New Device: - Added support for VB370A - Added support for MT100S - Added support for NC30 - Added support for TR322 New features - Added support VC mode for MT500 - Added support Framing mode on PTZv2/TRv3/TR535(N)/TR615/TR322 - Added support MD720UIS/MD100UI reboot/get log/firmware update via RM - Added support Audit Log Viewer Improvements ■ NA Known issues ■ NA
V1.3.1019.0 Release date: Feb 24, 2026	New Device: Added support for MT500 New features

	- Added support VC cameras with automatic RTSP stream enabled Improvements ■ NA Known issues ■ NA
V1.3.1014.0 Release date: Nov 7, 2025	New Device: - VB150 - HUB30, HUB35-EXT35 New features - Added Configurable Database Path - Added RTSP password configuration for CAM, VB and VC series cameras - Enhanced AI control features for PTZ, CAM, VB and VC series cameras - Added support for controlling multiple AVer Medical Grade(MD120, MD330) through Room Management software Improvements ■ NA Known issues ■ NA
V1.3.1009.0 Release date: Jul 4, 2025	New Device: - MT100 - TR535(N) - TR615 New features - N/A Improvements - Improve security strength of username and password ■ Username: Use 1-32 characters ■ Password: Use 8-32 characters and a combination of uppercase letters, lowercase letters, numbers, and symbols (! \$ % ' () + , - . / < = > ? @ [\] ^ _ { } ~ *) Known issues N/A

V1.3.1003.0 Release date: Feb 14, 2025	New Device: - N/A New features - N/A Improvements - Re-brand from “PTZ Management” to “Enterprise Management”. - Change the wording from “Camera” to “Device” to support camera and box devices. Known issues - N/A
V1.1.1068.0 Release date: Sep 23, 2024	New Device: - Fone700 New features - Add group recording function - Support MT300 control panel & recording function - Support MT300 live mode Improvements - NA Known issues - NA
V1.1.1063.0 Release date: Jul 26, 2024	New features - Support TR535 - Support VC520Pro3 Improvements - NA Known issues - NA

V1.1.1061.0 Release date: May 20, 2024	New features • Support CAM520 Pro3 • Add “Segment” toggle in Tracking Control for specific model. Improvements • NA Known issues • NA
V1.1.1058.0 Release date: Jan 14, 2024	New features • Support 4K RTSP Streaming • Support TR211/PTZ211/PTZ231 Improvements • NA Known issues • 4K stream might be seeing the broken image occasionally if system performance is not high enough.
V1.1.1054.0 Release date: Oct 12, 2023	New features • Add cyclical recording time setting • Add recording button in main page • Add general setting for minimize behavior • Add Ukrainian Improvements • Access User Manual from Download Site • Fix “Unauthorized camera account/password” issue Known issues • Random failure of pan/tilt/zoom control of third party NDI camera on PTZ

	Management.
V1.1.1051.0 Release date: Aug 16, 2023	New features • Support Tracking Camera TR315/TR315N/TR335/TR335N Improvements • Correct typo in system page Known issues • Random failure of pan/tilt/zoom control of third party NDI camera on PTZ Management. • Audio output is still on when camera powered off.

V1.1.1048.0 Release date: May 18, 2023	New features • Support PTZ330UV2 series • Support MD120U • Support MT300 • Support RTSP & VISCA port setting Improvements NA Bug fixes NA Known issues • Random failure of pan/tilt/zoom control of third party NDI camera on PTZ Management. • Audio output is still on when camera powered off.
V1.1.1045.0 Release date: Mar 29th, 2023	New features • Support CAM550/CAM570 Improvements NA Bug fixes NA Known issues • Random failure of pan/tilt/zoom control of third party NDI camera on PTZ Management. • Audio output is still on when camera powered off.

V1.1.1042.0 Release date: Jan 11th, 2023	New features • Support PTZ310V2 Improvements NA Bug fixes NA Known issues • Random failure of pan/tilt/zoom control of third party NDI camera on PTZ Management. • Audio output is still on when camera powered off.
V1.1.1040.0 Release date: Nov 2, 2022	New features • Support Remember Login • Support Click to center of TR series • Support 25 split screen • Support error reporting and restarting mechanism when crashed Improvements NA Bug fixes • Disable recording when PTZ Management in NDI mode • Camera has no focus in NDI live view while multiple view Known issues • Random failure of pan/tilt/zoom control of third party NDI camera on PTZ Management. • Audio input is still on when camera powered off. • Camera preview page on PTZ Management seems darker when comparing to camera webpage.

V1.1.1037.0 Release date: Sept 6, 2022	New features • Support sorting of camera view display. • Support camera recording. • Support integration with CL01 controller. Improvements NA Bug fixes • Resolved the issue of NDI stream failure on PTZ Management with Windows 11. Known issues • Random failure of pan/tilt/zoom control of third party NDI camera on PTZ Management. • Audio input is still on when camera powered off. • Camera preview page on PTZ Management seems darker when comparing to camera webpage.
V1.1.1034.0 Release date: June 2, 2022	New features • Support full screen camera view which hides the control panel. • Support preset cruising. • Able to zoom in/out the camera live view when scrolling the mouse. • Camera view position to the center when clicking on the live view (*Only supports MD330U series and single split screen on PTZ Management). • Support two-way audio (Only supports MD330U series) Improvements • Support hostname of camera. • Support Korean translation Bug fixes • Fixed the issue of PTZ Management stops working after long operation

	over 12 hours. • Fixed random crash of PTZ Management when connecting NDI camera. • Fixed the issue of getting wrong camera view when connecting two NDI cameras to PTZ Management. When the user turns off TR310/TR311/TR311HN/TR313/TR333, the camera switch to Standby Mode; When powering off PTZ310/PTZ330/PTZ310N/PTZ330N/PTZ310W/PTZ330W, the camera either goes to Power Saving or Standby Mode. As for TR530/TR320, the camera switches to Power Saving Mode.
--	---

V1.1.1009.0 Release date: September 22, 2020	New features • Include AVer IPCam Utility when installing AVer PTZ management. • Support camera live view, remote control such as pan, tilt, zoom, tracking etc. • Tracking control status to be active with the PTZ camera (SmartShoot) Enable/Disable. • Able to add up to 128 new cameras. • Able to edit and delete devices. • Support device grouping. • Able to set up maximum 100 users or admin login account. • Able to go to the camera web control by clicking “Go to Web”. • Able to import and export device file. • Support multi device FW update. • Able to compare FW version before auto FW update. • Support device reboot remotely. • Support device factory reset. • Remotely update supported camera list. Known issues • Unexpected status when using Pan, tilt, Zoom. • Will be fixed in the next version as the issue will be fixed by firmware as well. • Upgrade/Auto Search/Model name isn't workable with non-specific ID. • The software will recognize the model name within the supported camera list, so if the model name is being changed, it wouldn't be recognized. • Scroll bar to full, but <zoom in rate> isn't maximum. • Scroll bar is defined inconsistently on different devices. Will be fixed when the issue is fixed by firmware first. • Scroll bar value does not sync to current value while tracking on. • Will be fixed when the issue is fixed by firmware first. • Two different behaviors while user turned the power status from
--	---

	Power On to Standby. • Will be fixed when the issue is fixed by firmware first. • Scroll bar's ratio track cannot synchronize with Camera. • Wrong value is sent by firmware. Will be fixed when the issue is fixed by firmware first. • After update success, <six minutes limit> should be cleared. • It happens because there is a 6-minute countdown on software when firmware is updating. If firmware update finishes within 6 minutes, the time limit will be cleaned out. Will be fixed in the next version.
